

Totara Science Fair

**This Wednesday, 7 July
from 11am to 1pm
in the Hall**

Totara Syndicate has spent this term formulating hypotheses, designing experiments and analysing results. This has all been in preparation for our biennial Science Fair to be held this Wednesday in the Hall.

Feel free to come down between the hours of 11am and 1pm and roam around our various displays. You might learn how best to melt ice, grow plants, clean coins or determine which is the tastiest chocolate presently on the market.
