SUPPORTING LEARNING AT HOME

To help reinforce the learning happening in class, there is a Google Classroom called **Rimu – Activities for Home**. This space includes activities that align with what we're covering in class and are a great way to support your child's understanding and retention of key learning.

If you'd like to explore these activities with your child at home, you can join the classroom using this code: **tvpxaknt**.

♥ Your child already knows how to access Google Classroom, so they'll be able to show you how to log in! Thank you for your continued support with your child's learning journey.

WELCOME BACK RIMU WHĀNAU!

Welcome back to Term 4! We're looking forward to an action-packed and exciting term of learning, discovery, and celebration. We began the term with Book Week, and it has been wonderful to see the excitement and high engagement from our learners. Reading is such an important part of learning, and this week has reinforced just how much joy and inspiration books can bring.

WHAT'S COMING UP?

Our integrated learning theme this term will see us diving into cultural celebrations and festivals around the world. Students will explore a range of traditions and festivities, hopefully sparking curiosity and perhaps even inspiring some future travel dreams!

In mathematics, we'll be developing confidence and accuracy in division, geometry, measurement, and probability. This term will also include opportunities for revision and gap analysis as we prepare students for the next stage of their learning journey in 2026.

In writing, students will be preparing and presenting speeches. This can be a real challenge, as speaking in front of others often means stepping outside our comfort zones. Our teachers will be supporting students through this process, helping them build both skills and confidence. We look forward to our class and team speech presentations, with the finals taking place in Week 6, ahead of the Parumoana competition.

We also have our school athletics in Week 2 – a chance for students to show their Kia Māia spirit and celebrate effort, determination, and achievement. Please ensure children have appropriate footwear both in the lead-up to athletics and on the day itself to support their participation and enjoyment.

Term 4 also brings with it the return of the sun and warmer weather (hopefully!). Please remember to apply sunscreen in the mornings and ensure students have their school hats. Hats are compulsory during break times and outdoor activities from Labour Weekend.

We can't wait to see the learning, creativity, and growth this final term of the year will bring.

Ngā mihi nui,
Team Rimu
